Permanent Liner Hanger Packer

KX Oil Tools Permanent Liner Hanger Packer is a versatile hanger packer capable of hanging high loads off the mandrel. The packer has a large bore, a proven element design, and a reliable dual slip system for secure anchoring in the casing.

The KX Oil Tools Permanent Liner Top Packer is deployed on the Collet Running Tool (CRT) and Hydraulic Power Section (HPS) and can be configured with variable length Tie Back Barrels to accommodate a wide range of Liner Hanger installation types. No rotation is required to set the packer and it can be run in deviated or horizontal wellbores.

APPLICATIONS

- Production
- Injection
- Stimulation

FEATURES, BENEFITS, AND ADVANTAGES

- Provides Ability to Rotate Liner into Position
- High Load Carrying Capability
- Reliable Slip System
- Proven Design and Sealing System
